

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

BUFFALO FEMALE ACADEMY.

This Institution is situated in the most eligible and delightful part of the city, and commands a beautiful view of the city, the river and the lake. The grounds consisting of a whole block, fronting on Delaware avenue, and extending to a charming private park in the rear, are tastefully laid out and ornamented with trees and shrubbery.

The buildings, "The Cottage" and "Goodell Hall" combine all that is desirable in arrangement and convenience. The former is built of stone, and is exclusively occupied by the family of the Principal, the young ladies entrusted to his care as boarders, and the teachers of the Institution boarding with the Principal. The

latter, "Goodell Hall," has been expressly erected for academic instruction, and for spaciousness and convenience, may well challenge comparison with any similar establishment in the country. It has abundant accommodations for four hundred pupils.

A. & J. KEOGH, Piano Forte Manufacturers

NOS. 257, 259 AND 281 WASHINGTON STREET,

Between North and South Division Streets.

The subscribers keep constantly on hand an extensive and choice assortment of Piano Fortes, in elegant Rosewood Cases, which we warrant to be equal in tone, touch and finish, to any manufactured in this country. As a proof of the superiority of our instruments, the subscribers would respectfully call the attention of the public to the subjoined testimonial from Professor Gottschalk (one of the most distinguished pianists in this country), being one of the many they are daily receiving from professors and others, assuring them of the merits of their Pianos. Persons desirous of obtaining a superior instrument are earnestly invited to give us a call. Dealers supplied on liberal terms.

A. & J. KEOGH.

TESTIMONIAL.

SARATOGA, 27th July, 1856.

I was excessively satisfied with the piano which Mr. Richard Owen, of Quebec, was kind enough to lend me for my concert here.

That instrument, of the manufacture of Messrs. A. & J. Keogh, of Buffalo, was one of the most powerful, if not the most powerful, two stringed square pianos I had ever met with. The tone was full and round, without harshness, and of a remarkable evenness in all its registers. As to its strength, I will merely state the fact that it stood at my concert during two hours, without intermission, under five or six heavy fantasias, and as many small pieces, in a moist and hot atmosphere, without one single string breaking, or the instrument getting out of tune; which is more than I could say of many grand pianos, even of the most eminent makers.

The Messrs. Keogh are personally unknown to me, and this was the first instrument of theirs I had ever performed on; my opinion, therefore, cannot be influenced by partiality. In recommending it, I simply respond to an artistic feeling, and a desire to do justice to manufacturers whose popularity is so well deserved.

TURNER AND MANUFACTURER OF ALL KINDS OF

MAHOGANY, ROSEWOOD, WALNUT AND CHERRY

NEWEL POSTS

AND

REVOLVING CLOTHES DRYERS.

Would call the attention of the public to his REVOLVING CLOTHES DRYERS, which possess the following advantages over any other mode of drying clothes: Its rotary motion produces a circulation of air, causing the clothes to dry rapidly, and prevents the liability of their being torn. The labor and time in hanging up the articles to be dried and of taking them down are materially lessened.

It occupies but little space, and may be set up in any yard, however small, without inconvenience. The machine will be found to give entire satisfaction wherever it is used, and no family should be without one.

For particulars address, if by letter, POST OFFICE, BOX 4287.

Orders will be promptly executed, and the machine put up in any part of the city on short notice.

There is but one Col. Smith, and Bill-Posting is his Profit.—TURKISH.

COL. LUM SMITH,

The first one who has reduced Bill-Posting to a Science, takes this modest method of informing the Citizens of
 Buffalo and vicinity, and all persons connected with

Circuses, Menageries, Opera Troupes, Negro Minstrel Bands,

(Except the Euterpeans, who swindled the Colonel in the most rascally manner), that he is prepared to **ADORN**

PHOTOGRAPHS

OF ALL SIZES AND PRICES,

PAINTED IN OIL OR WATER COLORS.

Also, Pictures Painted from Life, if preferred.

Photographs executed in India Ink to equal the most finished engraving.

Photographs in India Ink, and beautifully tinted in Water Colors.

Photographs painted on Canvas, either Cabinet or Life Size.

These pictures surpass any other portrait ever produced, both in point of finish as well as in truthfulness to nature. Portraits produced by the Photographic process do away entirely with those long and tedious sittings which are so much dreaded in obtaining a likeness by the old method, and securing at the same time a more perfect picture.

Persons residing at a distance having pictures, either of living or deceased friends, can have a perfect life-size Photograph painted in oil on canvas, by sending the picture with a description of the person, giving the general complexion, color of the eyes and hair. By the photographic process, there is no possibility of a failure in reproducing a perfect *fac simile* of the original picture, no matter how small.

From my long experience in this line of portraiture, I feel confidence in saying to the public that in case of any picture failing to give satisfaction, I alone will be the loser.

The public generally suppose that a Photograph is different from the old style of oil painting. This is not the case; the "Photograph assists the artist in preserving the features," thereby rendering a failure impossible; and the picture equals, if not exceeds, those produced by the old method.

The pictures produced at this Gallery are pronounced by connoisseurs in the art to be superior to any in this State.

PHOTOGRAPHS COLORED IN OIL CONSIDERED THE ULTIMATUM OF PORTRAITURE!

BOOK BINDING.

An extensive Bindery is attached to our Establishment, where Binding and Ruling of every description is executed in a superior manner. Blanks of every description on hand or made to order.

CHROMOTYPE PRINTING.

We invite attention to this new and artistic style of Printing in colors, which has been so much admired and extensively used for Railroad, Steamboat, Business and Manufacturers' Show Cards, Maps, Charts, Illuminated Frontispieces and Titles, and for all purposes for which rich and magnificent printing is useful and appropriate.

By the Chromotype process we are enabled to give the most delicate shades of color for under-tints, backgrounds, etc., in a style hitherto unequalled. We refer to the Cards and Maps of most of the principal Railroad and Express Companies of the United States and Canada, for specimens of Chromotype Card and Map Printing.

The Oldest Establishment in the United States, employing 200 men, and finishing 80 Instruments per Week.

All melodeons of our manufacture, either sold by us or dealers in any part of the United States or Canada, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of FIVE YEARS from date of sale, we hold ourselves ready and willing to make the same free of charge, provided the injury is not caused by accident or design.

Agents for the sale of our Melodeons may be found in all the principal cities and towns of the United States and Canada.

(See Advertisement on other side.)

PRINCE & CO.'S

IMPROVED PATENT

MELODEONS

WARRANTED FOR FIVE YEARS.

Our Latest Improvement—Prince & Co.'s GRADUATED SWELL.

This is an entirely new idea ; and its want has been noticed by all acquainted with reed instruments. The old swell could never be made to operate gradually ; the instant the pedal was touched for opening it, the change would be instantaneous and abrupt.

Our New Swell is Constructed on Scientific Principles,

And we are satisfied, by our untiring study and experiment, that it is the only one by which the tone of reed instruments may be graduated from a mere whisper to the full power of the instrument, and *vice versa*. The volume of tone is also very much increased by this swell, and is now all that we could desire.

We have taken the necessary steps to secure a patent for our improvement, and shall not sell rights to other manufacturers.

This, in connection with our "DIVIDED SWELL" (which we patented in 1855), will be added to all the Melodeons which we manufacture in the future, and without extra charge. Persons unacquainted with the Melodeon and its history, will bear in mind that we are the pioneers and leading manufacturers, not only in the United States, but in the world.

We commenced the manufacture of Melodeons in the fall of the year 1847, and since that time have finished and sold

TWENTY-SEVEN THOUSAND.

These instruments are now in use mostly in the United States and Canada ; but also in Europe, Asia, Africa, South America, and the West Indies ; and from all these quarters we have the most flattering testimonials of the high estimation in which they are held.

At all Industrial Exhibitions they have invariably been awarded the

Highest Premium whenever exhibited in Competition with others.

All Melodeons of our manufacture, either sold by us or dealers in any part of the United States or Canadas, are warranted to be perfect in every respect, and should any repairs be necessary before the expiration of FIVE YEARS from date of sale, we hold ourselves ready and willing to make such repairs free of charge, provided the injury is not caused by accident or design.

THE SINGER SEWING MACHINES.

In order to place the **BEST FAMILY SEWING MACHINES IN THE WORLD** within the reach of all, we have reduced our **LETTER A, OR THE TRANSVERSE SHUTTLE MACHINE, with Hammer**, beautifully ornamented, to \$50.

These letter A machines contain recent valuable improvements. We would ask for them (before purchasing elsewhere), the special attention of Vest Makers, Dress Makers, and all those who want Machines for light manufacturing purposes.

SINGER'S No. 1 and 2 STANDARD SHUTTLE MACHINES.

Best of very general application and capacity, and popular in the family and manufactory. Prices reduced, respectively from \$135 and \$130 to \$99 and \$109.

SINGER'S NO. 3 STANDARD SHUTTLE MACHINES.

For Carriage makers and Heavy Leather Work. Price, Complete, \$125.

THE SINGER MACHINES

Make the interlocked stitch, which is the best stitch known. They are of great speed, easily understood, simple in structure, of great durability, adapted to the heaviest and lightest goods, constructed in the most perfect manner, and may be used for several years without requiring repair.

THE STANDARD MACHINES,

For Tailoring, Boot and Shoe Making, Harness Making, Carriage Trimming, etc., will do more work, earn more money, and are cheaper than those of any other maker as a gift.

 We have always on hand, Hemming Gauges, Silk, Twist, Linen and Cotton Thread on Spools, best Machine Oil in bottles, etc.

Buffalo Agency,.....230 Main Street.

All persons requiring information about **SEWING MACHINES**, their sizes, prices, working capacities, and the best methods of purchasing, can obtain it by sending to any of our Branch Offices for a copy of "**I. M. SINGER & CO'S GAZETTE**," which is a beautiful Pictorial Paper entirely devoted to the subject. *It will be sent gratis.*

D. CLINTON HICKS'*Queen City Commercial College*
BUFFALO, N. Y.

194 Main St., directly opposite the Celebrated Metropolitan Theatre.

MOTTO :—The Application of Knowledge to a practical end.

FACULTY:**D. CLINTON HICKS, PRINCIPAL. HORATIO SEYMOUR, COUNSELOR.**

TO THE PUBLIC:

In publishing a new edition of our Catalogue, we take occasion to tender our grateful acknowledgments to our patrons and the public in general for the very liberal patronage and confidence heretofore extended us. With greatly increased facilities we shall continue to devote our entire time and energies to the improvement and elucidation of a Practical Business Education, with a view of making the Queen City College what we always intended it should be, the most complete and reliable institution of the kind in the United States.

It is well known that we have introduced some very useful and important ideas connected with Practical Book-keeping, which have corrected many erroneous notions hastily adopted by mere theoretical instructors. We discard the old and exploded method of teaching Book-keeping and Penmanship by the aid of printed BOOKS and LITHOGRAPHED COPIES, and express our decided opinion that no one ever became a proficient accountant by the means of them. This letting a book perform the work of the instructor alleviates the drudgery of a teacher, and enables him to manage a large class with comparative ease, but is totally incompatible with acquiring a thorough knowledge of the subject. This drudgery is really the important part of a teacher's duty, the part that develops the powers of the mind, and without which no real progress can be made in any science. The "DAY BOOK" is generally the book of original entry, and contains memoranda and entries which are referred to and relied upon for settling all disputes arising between the parties; hence it is necessary that business transactions should be set forth in this book in a clear and concise manner, so that the VALUE may be transferred to the

other books without any erroneous computations. It is a growing proclivity, and should be guarded against, among many, to get rid of labor by employing a machine to do the toilsome part. This, in the department of learning, is deceptive, and extenuates the profession. Our limited space will not permit us to fully express our views on the method of JOURNALIZING and POSTING; therefore, we will say in conclusion, on this point, that our whole course of instruction is oral, and that we place no confidence whatever in the method of copying printed forms.

Penmanship,

In every variety and style of writing, on exclusively the ANALYTICAL SYSTEM. We refrain from praising ourselves. This INSTITUTION is too well known to need bolstering up with words of what the Principal can do on paper with the old "goose quill." Please confer with our students.

Let all remember that human capability can be made or can be thrown away, and that

—Progress is the order of God,—
Throughout the vast concave of space
True progress in knowledge and love
Must save each one of our race."

Also, that in this "land of the free and home of the brave" is a Commercial College that presents great advantages to the student. The Principal lays before the student a practical MANUSCRIPT DAY BOOK, composed from his own experience as a book-keeper, and conducts the course on an entirely original plan. Having but this school to attend to, he is enabled to complete the student in the shortest possible time.

Full Course, \$ 30.**Complete Course, \$ 40.****Extended, \$ 50.**

Remember the place of entrance, directly opposite the Metropolitan Theatre, over CONE'S Emporium, No. 194 Main Street.
